For Municipal Wastewater Collection Systems and Treatment Plants

One total system treatment (Thioguard® TST) replaces...
1. multiple chemical additives, saving money and hassle.

2. Technical grade magnesium hydroxide is environmentally safe, non-hazardous and safe to handle.

3. Thioguard® will provide a no-cost, no-obligation expert system assessment.

4. Thioguard® provides positive plant benefits for nitrification, biosolids production & digester performance.

5. Technical grade magnesium hydroxide provides highest pounds of alkalinity per gallon, compared to any other additive. (See chart below. Click to view larger size.)
